Marshall's NASA-3 now hangared at Huntsville Airport

The Marshall Mission Management Aircraft, NASA-3, is now hangared at the Signature Flight Support general aviation terminal at Huntsville International Airport. It has been relocated from Redstone Airfield. All NASA-3 flights originate and terminate at the Signature facility. Free parking is available for passengers. The schedule of pending flights for the aircraft may be found on "Inside Marshall" under the Travel/Transportation button.

technology exhibit
continues in Bldg.
4203 Wed. 8 a.m.-
3 p.m.**

Civil service employees asked to complete safety survey

Marshall Center civil service employees are asked to complete the Safety Performance Evaluation Profile (PEP). Employees can access the survey electronically through the "Inside Marshall" Website. Go to the Safety Web page and click on the "Performance Evaluation Profile" link. The level of participation of each Marshall organization will be tallied weekly until closing of the survey on April 1. See your supervisor for a number that identifies your organization.
